The public will have an opportunity to comment on the proposal during the coming months as the commission studies the company's request. The commission must approve the proposed changes before they can take effect. A copy of the company's application is available for public review at the commission offices in Boise and at the company's offices in Rexburg, Preston, Shelley and Montpelier.

Annual energy cost adjustment proposal

Rocky Mountain Power requests recovery of power costs.

On February 2, 2015, Rocky Mountain Power asked the Idaho Public Utilities Commission to approve the 2014 energy cost adjustment deferral of \$16.6 million and increase the rider by \$10.7 million. Under Rocky Mountain Power's proposal, customers will see an increase to their rates for this energy cost adjustment. The proposed adjustment will allow Rocky Mountain Power to continue to provide safe, reliable electric service to its customers.

The energy cost adjustment mechanism is designed to track the difference between the company's actual costs to provide electricity to Idaho customers and the amount collected from customers through current prices. Pending commission approval, the increase would take effect April 1, 2015.

The proposal would increase the average residential customer's monthly bill by \$1.70. The following is a summary of the percentage impacts by customer class:

- **Residential Schedule 1**
1.5 percent increase
- **Residential Schedule 36**
1.8 percent increase
- **General Service Schedule 6**
2.1 percent increase
- **General Service Schedule 9**
2.6 percent increase
- **Irrigation Service Schedule 10**
1.9 percent increase
